VOTING ROUNDS

MUST-HAVE CRITERIA

The criteria below are must-haves. If you cannot answer 'yes' to all of these, it will be difficult to succeed.

- Solving a **real market need** – there is a problem that customers will pay to have solved. It is a must-have, not just a nice-to-have.
- Addresses a **sizeable market opportunity**. Of course, sizeable is relative, but generally an addressable market of hundreds of millions or billions of dollars.
- Business has a potential **sustainable source of differentiation / competitive advantage**.
- Business has a clear path to making money (viable **business model**).

HIGH-LEVEL JUDGING GUIDELINES

1. **Problem / Solution** – Problem and solution are clearly defined and there is a unique value proposition for customers
2. **Business Model** – Revenue model and associated costs are clearly articulated and can generate future profits
3. **Competitive Advantage** – Company's solution is better than anything offered by competitors and is defensible
4. **Team Members** – Existing or planned team can credibly implement the business plan
5. **Marketing & Sales** – Marketing and sales approaches and costs are appropriate for acquiring customers and supporting revenue targets
6. **Financial Plan** – Financial plan based on reasonable assumptions with supporting documents

Judges include the WFN Board Directors, Angel investors/VCs, and qualified professionals by invitation.

Our [Junior Venture Capitalists](#) (Jr. VCs) program for young women in grades 9-12 includes education over the summer on entrepreneurship and investing, and a pre-pitch workshop with an investor to review and discuss the Top 10 companies. The girls participate in the Fast Pitch event as “venture capitalists for a day” and select their winning company, which they present with a \$5,000 sponsored cash grant.

WFN also runs a [Due Diligence Analyst](#) program for college and university women, providing real-world experience in performing due diligence on startups. The students will connect with the finalists after the friendly feedback pitch event for Q&A and work with mentors to research their assigned finalist company. They present their final reports in October to the Fast Pitch judges and Jr. VCs.
